

JONATHAN M. VELAZQUEZ

Cybersecurity Professional | Software Engineer Apprentice | Active Secret Clearance | USAF Veteran (24 Years) | IT Operations | System Troubleshooting | Technical Program Support
Montgomery, AL | jlcmvelazquez@outlook.com | LinkedIn: linkedin.com/in/jonathan-m-velazquez

SUMMARY

IT and cybersecurity professional with 24 years of U.S. Air Force experience in secure operations, system troubleshooting, IT coordination, hardware lifecycle management, and technical program support. Skilled in multi-user systems, VR/MR training platforms, and IT-enabled learning environments, with experience supporting mission-aligned engineering and training systems across multi-facility environments. Advancing technical depth through a U.S. Department of Labor Software Engineer Apprenticeship and a B.S. in Cybersecurity. Active Secret clearance.

CORE COMPETENCIES

Cyber & IT: Cybersecurity | IT Asset Management | System Troubleshooting | Secure Coding | JavaScript | Node.js | NoSQL | VR/MR Systems | Hardware Lifecycle | Configuration Management | Root-Cause Analysis | Technical Documentation

Operations & Support: Requirements Analysis | WAWF | System Performance Monitoring | Multi-User Support | Training Technology Systems | Process Development | Risk-Aware Decision Making | Stakeholder Coordination

EXPERIENCE

Software Engineer Apprentice | Creating Coding Careers - U.S. Department of Labor Registered Apprenticeship | Remote, AL | March 2026 - Present

- Developed and maintained full stack applications using JavaScript, Node.js, NoSQL, and Git.
- Diagnosed and resolved software defects, integration issues, and configuration errors.
- Applied secure coding practices and cybersecurity principles to reduce vulnerabilities.
- Configured development environments, version control workflows, and backend services.
- Created technical documentation supporting system maintenance and team understanding.
- Collaborated within Agile teams to plan sprints and deliver iterative improvements.
- Researched emerging technologies to support continuous improvement of engineering workflows.

Section Chief, Operations Division | United States Air Force | Maxwell AFB, AL | August 2024 - Present

- Led secure daily operations for AFCCC, ensuring compliance with cybersecurity standards.
- Managed deployment, accountability, and refresh of IT hardware across multiple secure facilities.
- Resolved hardware, software, and access-related issues affecting mission systems.
- Supported users by diagnosing system issues and coordinating fixes to maintain operational continuity.
- Modernized VR/MR systems with new hardware and software to enhance mission-aligned training.
- Maintained operational records and sensitive information per cybersecurity requirements.
- Developed SOPs, workflows, and documentation supporting system continuity.
- Briefed leadership on system performance, risks, and improvement recommendations.

Flight Chief, Education Division | United States Air Force | Maxwell AFB, AL | October 2021 - August 2024

- Directed secure training operations across 10 major commands.
- Managed instructional technology systems and distance learning studios.
- Resolved hardware, software, connectivity, and system access issues affecting instructors and students.
- Monitored system performance and recommended improvements.
- Produced operational reports, system usage summaries, and readiness documentation for leadership.
- Developed SOPs, workflows, and instructional technology procedures to standardize operations.
- Integrated IT-enabled tools into curriculum development and course execution.
- Modernized instructional systems by replacing projectors with Newline touchscreen displays.
- Enhanced remote collaboration by upgrading teleconference cameras and microphones.

NCOIC, Religious Affairs | United States Air Force | Los Angeles AFB, CA | November 2017 - October 2021

- Managed secure facilities and sensitive personnel information in compliance with DoD directives.
- Oversaw \$360K in funds and seven contracts requiring strict documentation and accountability.
- Led support teams across 33 units, ensuring secure operations and mission continuity.
- Advised senior leaders on personnel readiness and organizational needs.

NCOIC, Resource Management | United States Air Force | USAFA, CO | August 2011 - November 2017

- Maintained accountability for \$1M in assets across nine secure facilities.
- Executed \$172K in appropriated funds with full compliance and audit readiness.
- Supported 1,100 cadets and 12 training leaders in secure operational environments.

Chaplain Assistant / Logistics Supervisor | United States Air Force | Offutt AFB & Southwest Asia | August 2007 - August 2011

- Supported secure operations during deployments to Southwest Asia.
- Managed accountability for 129 assets across multiple facilities.
- Coordinated equipment replacements, turn-ins, and documentation.

Security Forces Member | United States Air Force | F.E. Warren AFB, Vogelweh AB & Southwest Asia | July 2002 - July 2007

- Conducted access control, emergency response, and security operations for high-value facilities.
- Documented incidents and enforced security protocols.
- Supported joint and coalition operations.

EDUCATION

Bachelor of Science (B.S.), Cybersecurity

American Military University - Charles Town, WV

Completed: 10/2025

A.A.S., Social Services

Community College of the Air Force - Montgomery, AL

Completed: 01/2013

A.A.S., Criminal Justice

Community College of the Air Force - Montgomery, AL

Completed: 11/2012
